Hall Web Services, Inc.

Hall Awarded Four-Star Preferred Vendor Rating

Friday, May 02, 2008

Scarborough, Maine – Hall Web Services, a Sage Software Preferred Vendor for Web Design and SEO, today announced that Sage Software has awarded them a four-star Preferred Vendor rating based on feedback from their customers. The four-star rating is the highest possible rating, based on the likelihood of a customer to recommend Hall to another Sage Software business partner.

"It is a great honor to receive such an award from our customers," said Tom Hall, President and CEO of Hall Web Services. "Though we work in technology, at heart we're a customer service organization. We take pride in our role helping customers build their businesses through the web and look forward to continuing to do so as the web business environment continues to change."

All Sage Software Business Partners who participate in the Preferred Vendor program are asked to rate vendors they've worked with on a "scorecard" sent out every quarter. The answers to this questionnaire determine the star rating of Preferred Vendors, as well as influence other honors given by Sage Software including "Preferred Vendor of the Year" and "Preferred Vendor Rookie of the Year," which will be announced for 2008 at the upcoming Sage Software Insights Conference. This year's Sage Software Insights will be held May 12-15 at the Gaylord National Resort and Convention Center in National Harbor, Maryland (<http://www.sagesoftwareinsights.com>).
