

PRESS RELEASE

Hall Web Services, Inc.

Hall Nominated for Three TechMaine Awards

July 9, 2010

Portland, Maine – Since 2002, TechMaine has honored Maine businesses and individuals for their accomplishments in the state's technology industry. This year, Hall Web Services was nominated in three different categories; Gazelle Company of the Year, New Technology (Product/Service) of the Year, and Technology Company of the Year.

"We were so honored to be recognized by TechMaine for three different categories," said Amanda O'Brien, Vice President of Marketing. "We have had a really great year as a company and it is nice to hear that the work we are doing is making an impact on our community and among our Technology peers."

Nominated for New Technology (Product/Service) of the Year, Hall Tools Software helps web marketing professionals, site owners and marketing managers maximize their internet marketing efforts. Hall Tools provides daily actionable website data through daily automated reports. The Hall's Tools Software harnesses the power of Social Media, SEO and Internet Marketing, and puts the power into the hands of business owners. Hall's Tools currently has 68 companies subscribed to the Software as a Service Internet Marketing platform, and projects that this figure will double by the end of 2011.

In the past 12 months, Hall Web Services doubled their staff of fully benefited, full time, salaried employees at their Portland office, and now employs 17 web developers, software engineers and internet marketers. "The growth of the company had been exciting and it was an honor to be recognized by TechMaine community for our growth and to be named as a leader in the Maine technology industry," added O'Brien.
